

The Embraer Legacy's cabin stands out above the rest and is tailored to the business traveler. With three separate cabin zones to increase productivity, this aircraft is the preferred option for Executive travel. The business traveler can stay connected with high-speed internet, Wi-Fi, a three line phone system and power outlets, all on board and easily accessible. Its cabin size, 1413 cubic feet, surpasses all jets in its class. The spacious, six-foot ceilings allow for comfort and an abundance of room to stand up and maneuver around the cabin with ease.

Cabin amenities include two 17-inch at screen monitors, DVD players with individual controls and posh seats that fully recline, which adds to the comfort and enjoyment of this luxurious aircraft. Twenty-two large windows and full LED lighting creates an exceptionally spacious atmosphere. With all those outstanding amenities, the 600 outdoes all its competitors in baggage space, housing 240 cubic feet of flight-accessible storage easily able to accommodate Golf clubs and Skis.
